September News for LSS

- Landshark Shredding is pleased to announce that after successfully fulfilling several short term document destruction contracts for a **U.S. Army post** in the southeast, it has recently finalized an ongoing long term contract to provide these services.

- LSS now has **Downstream Date Coverage** insurance. This now separates us significantly apart & above from about 99% of all other shredding companies in the world. We are one of less than 100 companies world-wide, which have this coverage.

Downstream Data Coverage is the only professional liability insurance:

- Designed for the unique risks of today's data-related service provider and the customers they serve.
- That validates the vendor's operational security with the regular announced and unannounced audits that are required for NAID AAA Certification.

What has been happening at Land Shark?

If you are not keeping up with us on social media or through our website, please feel free to give us a follow at the links below. Fall is a busy time for us here at Land Shark. Here are some things happening for us right now.

We were so excited to see Don Gerard, Land Shark President and CEO, featured in this month's edition of the VIP Bowling Green magazine. Click the image to be taken to the magazine's website to read the article.

Don Gerard, Land Shark President and CEO, and his brother-in-law, General Steve Basham, both ran in the Air Force half-marathon this past weekend in Dayton, Ohio. Land Shark is proud to be a veteran-owned company that seeks not only to protect you from identity theft but also to protect your rights as an American.

Also, we recently sent one of our long-time employees, Cady Tisdale out into the world to become a case manager at Twin Lakes Counseling Center in Leitchfield, KY. We will miss her here at LSS but are so proud of her.
